Design To Print

It's true. It's the one printing program that does it all!

For everything from newsletters, banners and greeting cards to flyers, certificates, posters and much more. *Design To Print*

Some printing programs let you make cards and banners. Some let you make report covers or certificates. Some are for creating newsletters. And others just for postcards.

But only *Design To Print* lets you do it all. With one powerful but easy-to-use program. Which not only saves you time – because you only learn *one* set of commands. It also saves you money – because you only need to buy *one* program.

You don't have to be a graphic artist to use *Design To Print*. Because it starts you out with easy-to-use icon menus and pre-designed sample formats.

Choose from over 250 illustrations. Or create your *own art*. Then make them *any size* you want and place them *anywhere* you want. You can rotate them. Or create mirror images of them. And when it comes to type selection, *Design To Print* gives you 30 different styles.

There are word processing capabilities to make it easy to put your ideas into words. And a cut and paste feature to make it easy to combine your words and pictures.

Design To Print will probably become one of the most popular programs in your family. Johnny can use it for school projects. Susie can make cards and party invitations. Mom can create posters for her club. Grandma can use it to put out the church newsletter. And Grandpa can print out postcards and billboards for his store.

Best of all, *Design To Print* is fun to use. Why? Probably because it's so *easy* to use. In fact, the only hard part about creating things with *Design To Print* is making sure someone else isn't already using it.

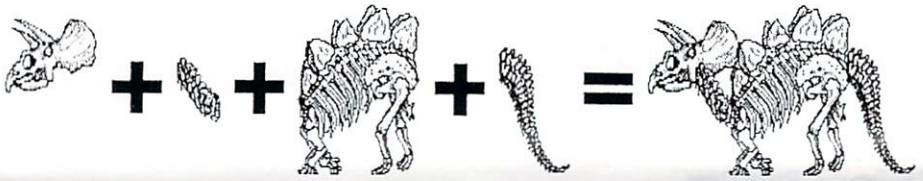
Discover Designasaurus.™ The one dinosaur program with three *dino-mite* activities!

Survive as a Brontosaurus, Stegosaurus or Tyrannosaurus Rex in this learning game with multiple skill levels. Walk through forests, swamps and mountains. Eat the right foods along the way. Avoid predators. And watch for natural disasters. Everything you do affects the delicate ecological balance. So watch variables like *vegetation, herbivores,* and *carnivores.* And see if you can live long enough to win a certificate to the Dinosaur Hall of Fame.



Create prehistoric giants from a collection of fossilized dinosaur bones. Select a head, neck, body and tail from the museum files. Then put them all together. Give your new creation its own special name. And print it out complete with palæontological information.

Print out 12 different dinosaurs. Each complete with descriptions and information. Select from 3 sizes: report, poster or jumbo. Color or paint them. Hang or frame them. Even make your own dinosaur book!
